Github: https://www.github.com/HarshitaR2 Mobile: + 91-9816613787

Skills

- **Languages**: Python, C, C++, Java, JavaScript
- **Frameworks**: HTML and CSS, NodeJS,
- **Tools/Platforms**: Jupyter Notebook, Power BI, Git, Github, LeetCode
- **Soft Skills**: Problem-Solving Skills, Time Management, Adaptability

Projects

Airtel Network Performance Analysis Dashboard | Github May' 2025

- Developed an interactive dashboard to analyze telecom network performance using ~19K records.
- Assessed key performance indicators, including call drop ratio, poor voice quality percentage, and customer satisfaction ratings.
- Visualized monthly trends to uncover performance fluctuations and potential degradation patterns.
- Delivered actionable insights through dynamic filters, slicers, and geospatial visuals, enabling data-driven decision-making.
- **Tech**: Power BI, Excel, Data Visualization

Public Libraries: An Exploratory Data Analysis(EDA) | Github Jan' 2026

- Performed in-depth EDA on U.S. public library data to uncover patterns in usage, financial health, and digital engagement.
- Trained Analyzed relationships between population served, service trends, and expenditure efficiency using Python,Pandas, and Numpy.
- Created visualizations such as scatter plots, heatmaps, and trend analyses with Matplotlib and Seaborn to deliver actionable insights.

Tech: Python, Pandas, NumPy, Matplotlib, Seaborn

Training

Data Structure and Algorithm Using C++ (Lovely Professional University) | Certificate July 2025

Lovely Professional University.

- Acquired strong fundamentals in data structures including arrays, graphs, heaps, and hash maps.
- Designed and developed a Blood Bank Locator and Dispatcher System leveraging graph algorithms, priority queues, and hash maps for efficient donor–hospital matching.
- Implemented optimized algorithms to support real-time blood availability tracking, nearest donor identification, and route optimization.
- Enhanced system efficiency and response time by applying advanced DSA techniques for faster data retrieval and decision-making.

Certificates

- Computational Theory: Language Principle & Finite Automata Theory | Infosys Aug' 2025
- ChatGPT-4 Prompt Engineering – Generative AI & LLM | Infosys Aug' 2025
- Social Network | NPTEL Apr' 2025
- Crash Course on Python | Coursera Jul' 2024

Extra Curricular Activities

- Event Manager, Cyber Security Club :-
  Organized and managed cybersecurity events, coordinating teams and ensuring smooth execution.
- DSA Practice (LeetCode) :-
  Regularly solved data structure and algorithm problems, strengthening problem-solving and coding efficiency.
- Technical Event Participation :-
  Participated in coding contests and technical challenges, applying problem-solving skills under time constraints.
- Self-Driven Learning :-
  Actively explored new technologies and tools beyond coursework, demonstrating initiative and continuous learning.

Education

- **Lovely Professional University** Phagwara,Punjab
  Bachelor of Technology - Computer Science and Engineering CGPA:- 6.69 *Since August 2025*
- **Bharti Vidhya Peeth School** Baijnath, Himachal Pradesh
  Intermediate; ***Percentage: 82%*** *April 2021 - March 2022*
- **Bharti Vidhya Peeth School** Baijnath, Himachal Pradesh
  Matriculation; ***Percentage: 80%*** *April 2019 - March 2020*
